

Advantages of Pinnacle Senior Care

Pinnacle delivers your care in the comfortable, less costly environment of your own home.

- Medicare pays 100%. Qualified patients with Medicare have no co-pays and no deductibles.
- Expert staff in supporting the health care needs of the chronically ill patient population.
- Pinnacle does not require you to see different doctors. Your personal doctor will supervise your care from Pinnacle.
- Pinnacle can make multiple visits spread over weeks or months to make sure your recovery proceeds according to plan.
- The actual home makes the best classroom when teaching health and safety strategies.
- Recovery from stroke and other challenges goes better when rehabilitation occurs in the home environment, where people will continue to live long-term.
- We are a division of U.S. Medical Management, a comprehensive home-based health care family of companies. If you need additional care outside of our services, we can help.

OUR MISSION

Our Mission is to promote exceptional patient outcomes through compassionate delivery of care.

Home Care Frequently Asked Questions

Q: What is Home Health Care?

A: Home Health Care is a service that permits patients to receive personalized health care, maintaining their quality of life in the privacy and comfort of their homes, preventing hospitalizations and early entry into long term care.

Q: Why Home Health Care?

A: Home Health Care is a cost-effective option for receiving health care services. Returning to one's home and family can promote quicker recovery and improve the quality of life for both patient and family or caregiver.

Q: What criteria must be met for Medicare to approve services?

A: The following criteria are used to meet Medicare requirements:

The patient must be a Medicare recipient.

The patient must be homebound. This is defined by Medicare as "normal inability to leave the home and leaving the home requires considerable and taxing effort."

The skilled care must be medically necessary as determined by a physician.

Q: Do I need a physician's order for Home Health Care?

A: Yes, all health care provided in the home occurs under direct order and supervision of the patient's physician.
